Corrections to Errors in the Code of
Federal Regulations
71 FR 40254 - 40280
July 14, 2006
(RCRA Cluster XVII, HSWA/Non-HSWA)

Name of State: _____

State Statutory Authority: _____

Title of Regulations: _____ Effective Date: _____

Date Checklist Completed: _____

Note: This rule does not create new regulatory requirements; rather, the rule corrects errors made in numerous final rules published in the Federal Register, and corrects printing omissions and other printing errors in the Federal Register and Code of Federal Regulations. EPA believes that the errors cause confusion and that the corrections will facilitate understanding of the hazardous waste and used oil regulations. The application, implementation, and enforcement of the regulations addressed in this rule are not changed in any way.

All of the changes documented on Revision Checklist 214 are explained in the preamble to the July 14, 2006 Final Rule. This revision checklist details the changes being made to correct the errors. In some cases, where the nature of a change demands an explanation, the explanation of the error from the preamble to the Final Rule is provided as an endnote.

- 1 The final rule addressed by Revision Checklist 214 removes the existing provisions at 40 CFR 261.21(a)(3) and (a)(4) and adds new provisions 40 CFR 261.21(a)(3)(i)-(a)(3)(ii)(D) and 261.21(a)(4) introductory paragraph - (a)(4)(i)(D). By doing so EPA is correcting an error by replacing the obsolete references to the DOT regulations with the actual language from the referenced sections of the DOT regulations that were published in Title 49 of the CFR at the time of the finalization of the RCRA regulations (1980). Clarifying notes 1-4 addressing the corrected text were also added to the end of section 261.21. The implementation and enforcement of the ignitability characteristic will not change in any way.
- 2 The July 14, 2006 FR contains an unnecessary instruction for a change to 40 CFR 261.33. Item 15.k. adds a second entry for waste U227 to the numerical list of U-list wastes in the table at 40 CFR 261.33(f) (second column, page 40260). This is unnecessary because the numerical list of U-list wastes, including two rows for U227, is newly added to the table at

-
- 261.33(f) by the instruction at item 15.1.
- 3 There is a typographical error in the July 14, 2006 FR notice for the final rule addressed by Revision Checklist 214. On page 40274, third column, within the changes for §264.1080, there is an extra quotation mark (“) in front of “I, J or K” in the amended phrase.
- 4 Because of a printing error, 40 CFR 265.147(a)(1)(i) and (ii), and 265.147(b)(1)(i) and (ii) were omitted from the July 1, 1989, 1990 and 1991 CFRs, although they were included in earlier editions of the Federal Register and CFRs. A September 23, 1991 (56 FR 47912) correction to the CFR published in the Federal Register corrected the omission of § 265.147(a)(1)(i) and (ii) from those CFRs, but did not mention the omission of § 265.147(b)(1)(i) and (ii) from the CFR. This correction is being made to be sure the subparagraphs in 265.147(b)(1) are in the next edition of the CFR.
- 5 The final rule addressed by Revision Checklist 214 is correcting the error by reinstating the language at § 266.103(c)(1)(i), as introduced by the February 21, 1991 (56 FR 7134) final rule, and the language at § 266.103(c)(1)(ix), as introduced by the February 21, 1991 final rule (56 FR 7134) and amended by the July 17, 1991 final rule (56 FR 32688).
- 6 The August 18, 1992 final rule (57 FR 37194) added 40 CFR 268.7(d)(1)(i) through (iii) to the Federal code. As part of the amendments made to the section on January 3, 1995 (60 FR 244–245), the Office of the Federal Register, by mistake, removed paragraphs (d)(1)(i) through (iii). The July 14, 2006 notice corrects this error by reinstating paragraphs (d)(1)(i) through (iii) of 40 CFR 268.7.
